

2019 CAT 320 Excavator - Inspection Report

Lot 101 | June Farm, Ranch, and Heavy Equipment Auction

Inspection date	June 8, 2026
Location	Clark Waco Yard, Waco, Texas
Meter reading	4,218 indicated hours
Serial number	Published on the marketplace lot detail
Inspection scope	Visual walk-around and basic operational check

General condition

Machine started from cold and moved under its own power during the yard check. Cab glass, operator controls, boom, stick, bucket, and visible hydraulic lines were reviewed.

Observed items

Normal exterior wear for age and use. Track and undercarriage wear is visible in the published photographs. Minor seepage was observed near one auxiliary hydraulic connection.

Included equipment

Digging bucket and hydraulic thumb shown in the catalog photographs. No attachments are included unless pictured or listed on the lot page.

Buyer guidance

Review all catalog photographs and attend the scheduled preview when possible. Hour readings are indicated values and are not guaranteed.

This report records the catalog inspection and is not a warranty, appraisal, or substitute for an independent inspection.
